PIOCHE. NEVAD

Naw Mexica Cotton.

No. of the Correct, equals of the Correct of

is not my affair, though I am sorry to think of it. Good morning, sir. If at any time, no matter how long an inter-ral, by some inconceivable accident any-thing should become out of order in it, you will find the name of the manufacirrers stamped on the side. Be good enough to drop a line to their well known house at Glasgow, and a man will in-stantly be sent to attend to it."

I was besten. This offer to send a man from Scotland into the heart of S. ASHIM & BRO. England, after a lapse of years, to put a gratuitously bestowed three-pence half-pency gas burner to rights was too much for me. I had to make a purchase. S. ASHIM & BRO.

# KRUPP'S GUNS.

Every one has heard of the famous Spring Stock!
Emph rifled steel cannon, which caused such a sensation at the Paris Exposition.

New Cool and so much more when directed against perhaps the same admiring crowds a short time afterwards. But few, if any, have an adequate conception of the immensity of the works whence come these terrible monsters. The cast-at-et works terrible monsters. The cast-street works at Essen, on the Rhine, have been in operation since the year 1810. They cover as area, of which 185 acres are roofed over. 12,000 workmen are constantly over 12,000 workmen are constantly the steel. Besides there are some 2,000 man employed in building and repairing, 5,000 in the mines and furnaces connected with the works, and 739 clerks and other employes. The total is thus brought up to nearly 18,000 men. In 1872, the amount of cast-steel produced was 129,315 tons, consisting of axles, tires, rails and rail-crossings, springs, tasked alks for marine engages, builder, canked alks for marine engages, builder. ranked axles for marine engines, botter-plate rolls, spring steel, tool steel, guns, gan carriages, shells, etc. There are 1,090 furnaces of different kinds, smelting reheating, heating, puddling, cupola, etc., 264 forges, 275 coke ovens, and 310 steam boilers. There are 71 steam hammers and 286 engines in the works; the total horse-power of the engines being about 10,000. There are 1,056 machine

During the year 1872, 491,535 tons of coal and 123,315 tons of coal and 123,315 tons of coke were consumed. Water for the boilers, etc., was used to the amount of 7,700,000,000 galons: and the gas, made on the spot, suched a total of 170,000,000 cubic feet. letween the shops are twenty-three miles I broad and nine and three-quarter miles narrow road, railway racks, with full appointments of rolling stocks. Besides spontments of rolling stocks. Besides those means of communication, 272 carts are employed. But to go further into his maze of overwhelming figures would be to no purpose. Suffice it to say, that the establishment is in reality a small city. It has its own stores, dwellings, educational buildings and hospital. Whether we consider the vast amount of crude materials, ores, metal, fuels, etc., entering its gates, or the ponderous castentering its gates, or the ponderous cast-ings and the varied manufactures leaving the works, the effect on the mind is completely overpowering. And the quality and beauty of the finished products are commensurate with their actitative importance. Altogether, the sen steel works of Friedrich Krupp esent a sublime spectacle of vastness nbined with perfect engineering econ-

THERE is an announcement that a num-er of colored Republicans have united in a secret association, styled the Equal Right's League, for the avowed purpose of supporting only colored men for polit-ical offices. The organization is said to be led by Professor Greiner, until resee led by Professor Greiner, until re-cently professor in the Harvard Univer-sity. A portion of the Republicans here bitterly denounce the movement and characterize it as part of "know-nothing-ism," and unlikely to succeed in a city where, out of 35,000 votes, only 305 are east by black men. The persons con-ducting this movement are the same who have agitated the mixed school question. The Republicans denounce the movement to Republicans denounce the movement entirely un-Republican, and maintain the colored men already have more at their share of offices in Washington, at they have converted their share at their share of their share at their share are stated in the that they have appropriated their share of the school funds, and are represented

n every municipal board. Ax advertiser of a new liniment mildly calls our attention to the fact that his notice should read, "There is no pain this liniment will not relieve," an idea suggested to him by the last issue of Danbury News, in which a compositor had taken the precaution to substitute the word "revive" for "relieve."

OFFICE FLORAL SPHINGS WATER Co., J July 30, 1873, THE FOLLOWING REGULATIONS HAVE been duly adopted by resolution of the Board of Trustees of the

PLORAL SPRINGS WATER CO.

They are to be strictly observed by consumers of Floral Springs water:

1. In all cases of non-payment of the water rent within three days after presentation of bill, the supply will be cut off, and the water shall not again be let on, either for the present or any subsequent occupant, except upon the payment of the amount due, together with the sum of two dollars; provided that in cases of specific supplies, or for fractional parts of the incuth, where the water has been let on, it may be cut off immediately after notice given at the place that the rent is not paid, and may be let on sgain upon the condition before mentioned.

2. No person or family supplied with Floral Springs water will be permitted to use the water for any other purpose 'han that stated in this agreement, nor to supply water in any way to other persons or families.

3. Consumers shall prevent all unnecessary waste of water, and shall make no concealment of the purposes for which it is used.

4. No alterations shall be made in at "waterpipe or fature without first giving notice or the intended alteration at the office of the Company.

5. In all cases where water is to be supplied to several parties or tenants from one connection or tap, the Company contracts only without of said several parties, and on his default to abile these regulations, and pay the rates, will cut off the connection.

6. Whenever any of these regulations shall be violated the supply of water will be discontinued, and not resumed until all charges and expenses are satisfied.

7. All persons taking water shall keep their service pipes in good repair, at their own ex-

prince are satisfied.

7. All persons taking water shall keep their service pipes in good repair, at their own expense, and they will be held liable for all damages which may result from their failure to do so.

The attention of customers having pipe connections is hereby called to the above Rules and Regulations, adopted by the Board of Trustees, and which are hereafter embodied in all contracts for water, and required to be signed before the supply will be turnished. The above regulations will be strictly enforced, and parties resolutions or reducing to compare the complexity.

regulations will be strictly enforced, and parties neglecting or refnaing to comply with them will have their supply of water discontinued at once. The Company reserves the right or placing meters on all places supplied through the pipes, in which case two and one-half cents per gallon will be charged for the water used, and one-half the cost of the meter and placing upon the premises. Parties having hose, in case of fire, will be allowed to use water to extinguish the same free of charge. Water will be supplied
